For being caught by watchman Vanstone in the act of "getting away " with 43 lbs. of steel from the premises of the Hongkong and Whampoa Dock Company at Hungham yesterday, a wayward heathen was juiled for a period of three calendar months by order of Mr. Wodehouse, who presided at the magisterial gathering of "the great unwashed" in the Police Court this possession. morning.

HUDSON'S "Surprise Party," now performing with great success at the Theatre Royal, Calcutta, will probably visit Hongkong, Shanghai and Japan about April next. Mr. Hudson's new company, lately recruited in London, comprises act as hon, secretary, and would receive any a lot of versatile talent, and we doubt not that suggestions that might be offered between now this straight-going showman's next visit to the | and the end of the month. Then, by the end of the Far East will be attended with gratifying year, the Committee would call a meeting of the financial results.

DR. FIEDIG, a Government medical officer in Java, has brought out a work on bert-bert, based on extensive research, in which he comes to the conclusion that the disease passing by that name is very common among the native population of the Indian Archipelago, and is not limited soldiers, sailors, and prisoners, who are said be predisposed to it from leading, compulsorily, a confined kind of life.

ACCORDING to a London contemporary it now appears certain that the Czarewitch will visit Constantinople as orginally intended, notwithstanding the rumours that the difficulties between the Porte and the Œcumenical Patriarchate would interfere with the project. His Imperla Highness will be accompanied for his tour to the Far East by Princes Bariatinsky and Cholensky, and M. Volkoff.

A NETHERLANDS-India paper states that an English mining, engineer named J. W. James has undertaken coal prospecting at Tanisarie in Java, and has sunk shafts and run galleries for the purpose. So far the coal found is said to have proved of first-class quality-a clear dry coal-and from the tilted position of the scams in the parent sandstone—they (the scams) have been subject to a very high pressure.

SEVERAL local sportsmen are ranging the country around Castle Peak Bay in pursuit of a tiger which has made its appearance there, and is carrying off cattle. We wonder whether the hunt will end up in the style of the epitaph on a nigger who was drowned whilst fishing, which left it doubtful whether -

"The nigger went a-fishing Or the cat-fish went a-niggering."

IT would appear that the settlement of too many Chinese in the interior of Java does not find favour with the Dutch Government. The Surabaya Courant, in dealing with this subject says the Chinese introduce the consumption of opium wherever they gain a foothold inland, to the impoverishment of the poorer classes. Chinese money-lending also works untold mischief among the poor, who have to pay such high interest that ruin and misery befall almost all of them when once they take to borrowing. The result is growing insecurity and crime among this class of people, and the Government is therefore restricting the influx of Chinese.

BONHAM Strand (China Town) has been very gay and festive for the past three days; the occasion being the "Tenth Moon Fire-gods" Propitiatory Festival." Banners, puppet-shows. bands and processions being the order of the day down Strand way just now. The ratepayers' Friend (the O. F.), the Yuen Fat, Leung Tai and several other firms are decorated both internally and externally in a manner which makes it well worth one's while to walk down and have a "look see." Festivities will cesse to-morrow night, and our Celestial friends will settle down to work again on Monday, keeping up full steam until the time of "chin chin, Happy New Year."

Another well-known local celebrity has passed over to the great majority in the person of that harmless and eccentric itinerant, popularly known as the King of Slam. The poor old fellow, who has been slowly breaking up for some time past, was taken to the Government Civil Hospital last Thursday week, suffering from serious injuries to his head, probably caused by a bad fall. Until yesterday Dr. Atkinson had hopes of pulling His Majesty through, but dangerous symptoms set in, and he passed quietly away this morning. The King, who was under the firm impression that the Hongkong Government owed him many millions of dollars, must have been well up in years. We suppose the usual inquest will be

THE action of the local fire insurance companies in deciding to take no more risks on coalgodowns, is generally evoking the allegation that apparently the companies think they should only receive premia, and never pay anything back. There have recently been a number of as follows:-Welsh, 5,000 tons; Australian, 2,000 tons; Japanese, 60,000 tons. This is considerably Some 30,000 tons were sent to Australia for the same reason, mainly for the P. & O. and Messageries Maritimes Companies' mail boats.

DURING the past week Bangkok-Hengkeng rice freights have receded, being at present 20 cents per picul. This is accounted for by the fact that the principal buyers of the Chinese "staple of life" are sending their orders to Wuhu and Chinkleng owing to the lower rates there prevailing both for grain and tonnage, the latter being 16 cents per picul from Wuhu to Whampon. The supply of rice at Canton now exceeds the demand owing to the manner in which buyers have been taking time by the forelock and filled up their godowns, knowing well that although prices may drop slightly within the next month that nevertheless there will be a "boom" in rice ere' spring makes its welcome appearance. The drought in the provinces of Kwangtung and Fuhklen still continues, and the people are fast losing their temper with the efficials whose constant prayers sent forth into space from the top of "good chancee" hills, have as yet utterly failed to the Dioceson Home be either removed to near the induce the Water Toss to upset his buckets over

THE CELEBRATION OF THE COLONY'S JUBILEE.

A large and representative meeting of residents in the Colony was held in the City Hall at noon to-day, for the purpose of deciding what steps should be taken to celebrate the fiftieth year of the existence of Hongkong as a British

Chief Justice Sir James Russell, who was unanimously voted to the chair, said that the first thing to be done was to nominate a committee to take into consideration the form the celebration -If there was to be one-should take. Mr. Wodehouse, he understood, had consented to subscribers, and lay their plans before them approval. In the meantime, of course, subscriptions would have to be obtained.

Mr. Thos, Jackson said it was generally 'agreed that it was desirable to celebrate the colony's jubilee. Hongkong had made a great name for itself all over the world, and although from time to time its prospects had been somewhat dark, he thought there were bright days in store (Hear, hear). He deprecated the spending of money on illuminations or anything of that sort-(hear, hear)-he much preferred that the jubiles memorial should take some useful and lasting form. He then moved that the Committee consist of the following gentlemen:-Sir James Russell, (chalman), Hon. S. Brown, Hon. C. P. Chater (hon. treasurer), Hon. W. M. Deans, C.M.G., Hon. J. J. Keswick, Hon. N. G. Mitchell-Innes, Hon. P. Ryrie, Hon. T. H. Whitehead, Hen. H. E. Wodehouse, C.M.G. (hon. secretary), Messrs. E. R. Belillos, G. de Champeaux, H. Crawford, T. E. Davies, V Descon, P. Dhalls, N. J. Ede, M. D. Ezeklel, W. H. Forbes, J. J. Francis, Q.C., D. Gillies, C. D. Harman, Ho Amel, C. F. Holliday, H. Hoppius, J. D. Humphreys, T. Jackson, Lee Sing, Lo Hock-ping, E. Mackintosh H. N. Mehta, S. C. Michaelsen, H. N. Mody L. Poesnecker, Poon Pong, W. H. Ray, Com Rumsey, R.N., R. Sassoon, G. Sharp, J. Y. V. Vernon, G. Wieler, Wel. Yuk and Wong Shing, with power to add to their number. That was a very large committee, no doubt, but they all knew the difficulty there was in getting a quorum in matters of this kind, where people had their business to look after, and it was better to have a list large enough to contain a strong working Committee, who could go into the matter thoroughly before laying plans before the subscribers.

Mr. C. H. Grace seconded, and the motion was

agreed to. The Chairman, after requesting that suggestions sent to the Committee should in the first instance be carefully considered, adjourned

THE PROPOSED PUBLIC LAUNDRIES.

the meeting sine die.

At the Sanitary Board meeting yesterday afternoon the following report by the Committee on Public Laundries was presented, and the Secretary directed to forward it to the Government, with a recommendation that it should be carried into effect without delay :-

That the accommodation considered most suitable for each public laundryman carrying on business in Victoria is (a) a washing room, (b) drying room, (c) an ironing room, (d) a dwelling room consisting of two living rooms, a kitchen, &c., &c., (s) a drying ground.

The number of public laundries in the city at the present time is sixty-four."

The number of public laundries using the streams above the west end of the Kennedy Road as their wash-houses is ten.

instance a set of wash houses consisting of ten and that after some little experience of the working of these wash-houses two other sets of at least double the size of this set be erected-ene at the cast end of the town, and the other at the west end. It is also strongly recommended that in letting the first set of wash houses preference should be given to the laundrymen now carrying on their business above the Kennedy Road, because the streams in which they now wash their clothing are being formed into open masonry nullahs, and in a very short time it will no longer be possible for them to carry on the washing part of their business in this locality.

The committee further recommend that should not be made compulsory for laundrymen. to rent the public wash-houses, but that it should be left to themselves to rent them or not as they consider most advantageous to themselves. is, however, a matter of public importance that laundries should be kept in a proper sanitary condition, and it is, therefore, urged that bysmall outbreaks of fire among old stocks of laws be made as soon as possible under Japanese coal, but that, the holders claim, is subsection 23 of section 13 of the Health well covered by the high rate of one per cent | Ordinance, and that they be gradually but that was charged. At present coal risks are firmly enforced. If this is done, and the public altogether refused by local offices, as well as by | washermen prefer to fit up suitable places | vising the new Central Market and several other some of the home companies. We learn that for themselves in which to carry on their "jobs," He had no idea who built the wall, the stock of coal here at present is, approximately, business, an urgent public requirement will be which was private property. The Government fairly adequately met by private enterprise.

The public nuisance arising from the washing under the average, owing to the late demand in | of clothing in public streams is well known and many Far Eastern ports whose usual supplies | requires no comment. With a view to prevent from Australia have been cut off by the strikes. I the spreading of this nulsance to other streams, the committee strongly recommend that steps be at once taken to prevent the formation of al fresco washing establishments in streams not already used for such a purpose. This readily be done by the police prosecuting, for committing a nuisance, any person found polluting a new stream by establishing tanks for the washing of clothing therein.

(Signed) S. BROWN.

N. G. MITCHELL-INNES. A letter from the Surveyor-General to the Colonial Secretary, which was laid on the table, stated that the sum of \$25,000 was included in the estimates of this year for public laundries. It further stated that the site of the proposed new laundries was Crown land, a portion of which was occupied by cowsheds under squatter's license. As it would be necessary to remove the squatter, he proposed to give him fair compensation for the value of his buildings.

'A minute was appended by Dr. Cantile, who suggested that the steam disinfector erected near, site of the new laundries or that it be placed at the thirsty land. Our Chinese friends should | the service of the public more readily than it is I petition for Moses and his red to be sent along, at present."

> THOSE GOVERNMENT CONTRACTORS!

HEAPS OF DIFFICULTY.

The inquiry into the circumstances connected with the death of a tin-smith who was killed on on the 1st instant by the falling in of a wall at the back of the Government Civil Hospital, against which a Government contractor had piled a large quantity of earth, was continued by Mr. Wodehouse at the Magistracy to-day. The surors were Messrs. F. H. Dalby, T. J. Reme-

dies and F. A. Remedies. Charles Marande, foreman of the Public. Works Department, said that he knew the site of the retaining wall at the Government Civil Hospital which was being constructed by the Surveyor General's Department. That was to say, it was done by a contractor under supervision of the P. W. D. Witness was the supervisor. Before the retaining wall was made he had to carry out certain excavations, or rather supervise those excavations. He had no intructions touching the disposal of the soil removed in connection with those excavations. His duties did not extend beyond the excavations, and he was on the spot about half an hour before the wall fell in and killed the Chinaman. He had previously observed earth piled up to within seven feet of the top of the wall. He judged there were 40 tons of earth resting against the wall. The hospital ground sloped down towards the wall in question. The pile of earth against the wall was about ten feet in height. The contractor was aware that he (witness) was supervising the work. The first time he saw the contractor on the works at the Civil Hospital was on the day of the accident, after it happened.

At this point the contractor was produced in Court and identified by witness. Continuing-He told the contractor's foreman to be careful about the way in which he put earth near the boundary wall. He was to keep it as far away from the wall as possible. About eight days after the commencement of the excavations witness first instructed him to keep the pile of earth as near to the road as possible. Hedid so because he saw that the men were piling it up against the wall. The excavations were commenced about the 20th ultimo. It was his duty to visit the works at least once a day, which he did. Subsequent to instructions previously issued he gave the contractor no further orders. Until the time of the falling in of the wall he considered the man was abiding by his instructions. Had he considered the man was depositing earth in a wrongful or dangerous position, witness could and would have stopped him. The works were inspected from time to time by his (witness's) superior officer. That superior officer was The committee recommend that in the first | named Chatham. Mr. Chatham called at the Civil Hospital works about thrice a week. After separate establishments be erected at Wanchal, witness had specially ordered the contractor's foreman to be careful to keep the earth away from the wall Mr. Chatham called there and instructed him (witness) to see that the earth was not piled against the wall—that about a week before the collapse of wall. The lower, heap of earth resting against the wall was deposited there by the contractor's employes during the six days prior to the accident. Witness saw the pile of earth there about half an hour before the wall fell down, and it appeared to him to be perfectly safe. About thirty minutes after the accident he again visited the spot. There had been no landslip.

The wall fell owing to bad construction. His Worship-The construction has nothing te do with it.

Witness-The wall fellowing to bad construction. He could not say that it fell owing to the pressure of earth against it. It appeared to me that a man could have pushed it down. the best of his knowledge no inspection of the wall was held prior to its utter collapse. proper inspection of the wall would have shown that it was very inferior; but superficially it appeared all right. Witness was now superhad nothing to do with the construction of wall; at least, it had not as far as he was aware.

Cross-examined-He never saw any of his superior officers at the works except Mr. Chatham, C.E. He did not know, he could not say positively, when he last saw one of his superior officers at the works. He believed he saw Mr. Chatham there about a week before the accident. Mr. Chatham distinctly told him to see that the earth was not piled against the wall to an extent that would be dangerous. Mr. Chatham saw the heap of earth in proximity to the wall and gave his instructions about three weeks before the accident. His opinions, as given on oath, were formed since the accident. There was earth resting against the wall, but he did not report it to his superior officer; neither did he draw the contractor's notice to the earth being placed against the wall. It never struck him that it was dangerous for earth to rest against the wall. When Mr. Chatham gave him special instructions it was probable that there was earth resting against the wall. In allowing the earth to rest against the wall he thought he was acting within his instructions.

To his Worship-Will your Worship kindly note that the witness says the pile of earth was added to within a week of the accident. "Hiv last instructions from Mr. Chatham were received about three weeks before the accident.

Major Barker, Royal Engineers, said that he visited the scene of the accident yesterday, and

found the wall was about 12 feet high above the basement of certain Chinese houses; and continued above the ground of the Civil Hospital. It was composed of blue bricks. The blue bricks were of good quality, the mortar of fair quality and on the whole it was an average Chinese wall of the colony. There appeared a gap about 60 feet wide which had carried away, carrying with it a portion of "spoil bank" which had been heaped behind it. He had made an inspection of the said "spoil bank," which consisted of earth that stood about 20 feet above the hospital level of the wall. He considered the pile was about 40 tons weight, roughly. The breach was about 20 feet in height. Taking into calculation the existing slope of the "spoil bank" he considered that at least four feet of the bank must have rested against the now broken wall for a distance, longitudinally, of at least thirty feet; the depths varying, along the side of the wall, from four feet to four-feet six inches. His opinion as to the cause of the fall of the wall was the weight of the earth behind it-that was the direct cause of the wall falling.

At this point Mr. Tucker, C.E., of the Public Works Department, produced a plan of the site of the accident showing the wall and earth bank

-" spoil bank." To his Worship-He considered that it was an unsuitable place to deposit earth. It was not desirable to pile earth there. The wall was not a retaining wall, it was an ordinary boundary wall. Owing to the angle at which the earth was shot down against the wall it had greater force against the wall than had it been piled up upon a flat surface, owing to the tendency the earth to slip. A possible immediate cause of the fall of the wall was a landelip from the speil bank" above. The maximum weight of the bank, the 4' 6" pile against the wall, was probably 20 tons. Such a wall was not designed to stand the pressure of earth, but it would stand

wind pressure. Cross-examined by Mr. Tucker-From hi examination of the site he judged the carth constituting the earth pile was composed of disintegrated granite. It appeared to him that the wall was built of alternate "headers" and "stretchers." If he were building a boundary wall he would see it was better constructed than the one that had fallen in. It was merely a fair Chinese style of wall—that was all. The mortar consisted of mud chiefly, and was very friable. It would hardly be possible to judge of the quality of the wall by external examination only His Worship to the jurors-Ithink, gentlemen, t will be necessary for me to get the evidence of the Surveyor General before we conclude this inquiry; so I will adjourn there proceedings sine die and let you know when the matter wil ngain come before us.

Home Guard, 30 to I against Vaticinator, 33 to I against Vengeance, 66 to I against El Dorado, 110 to I against Myth, 220 to I against Earlstoun. At the fall of the flag Earlstoun rushed to the front, and cut out the work two lengths ahead of Myth and Vengeance, Home Guard and El Dorado next, with the favorite bringing up the rear. These positions underwent very little change for the first mile, but after passing the Loong-fel gate last time round Home Guard gradually pulled himself to the front, and at the three-quarter starting point held a clear lead of Earlstoun, who was just in front of Vengeance Vaticinator and Zephyr. Approaching the halfmile post Mr. Maclean sat down on Home Guard and quickly led by four lengths, Zephyr now taking second place and starting in hot pursuit of Mr. Sylva's grey. The lightning rush of the famous brown was sustained until well past the Monument, and on entering the straight he had almost got on terms. All the way down the straight a splendid struggle ensued, but Home Guard, next the rails, had a shade the best of it throughout and gained the judge's fiat by half a length: Vaticinator was a very bad third and nothing else within hail. Hollyhock seemed to be winning easily until a hundred yards from the chair, when he tired rapidly, and Susewind, answering his jockey's vigorous calls with unflinching gameness, came with a rare rattle and appeared to have won cleverly; the sage's decisies, however, was a dead-heat. Encounter drew away from his field at the fall of the flag and quickly held a commanding lead from Black Leaf, the remainder following in close order. Mr. Inch's grey maintained his advantage until passing the Monument where he died away to nothing, leaving the issue to be fought out by Vagrant, Elegant and Wild Mint. Vagrant led until a distance from the winning post and appeared to have the race in hand, but Mr. Meyerink brought up Elegant with a well-timed rush and got the best of an interesting strugg by half a length; Wild Mint was a good third. Mr. Hough o Betting: In book betting, odds ranging from 5 to 2 to 4 to 1 were laid on Hero against the Field. In the pari-mutual the following were the quotations: -5 to 4 against Hero, 3 to 1 against Home Guard, 4 to 1 against Noirmont, 20 to 1 against Merry Christmas, 28 to 1 against Zephyr, 50 to 1 against Volcano, 63 to 1 against Vigour, and 100 to I against Autocrat, Hero and Home Guard, the latter next the rails, rushed away on the fall of the flag at such a pace that at the mile post they were at least half a dozen lengths in front of the field. Six furlongs from home this distance was materially increased, and as the pair shot past the half-mile post closely locked together, about ten lengths separated them from Zephyr, who was well ahead of the forlorn hope. Both jockeys were riding hard as they raced round the bend to the straight, Home Guard hanging on to his long-striding opponent like grim death. Once fairly turned for home Hero, for the first time in the struggle, drew slightly abead, but the gallant grey responded to Mr.

Myth, with the redoubtable "Schumann" in the saddle, was an even money chance in the pari-mutuel, the chances of Visitant and Ali Baba also attracting attention. There was, as usual in Mafoos' races, considerable trouble at the start, but eventually Mr. Ashley sent the nine competitors away on even terms, Octimus, All Baba and Vindicator being this most prominent as they streamed round by the Loong-fel gate, Myth and Visitant bringing up the rear, this pair evidently making a walting race. Half a mile from home Visitant shot through his opponents as if they had been standing still and, coming clear away, won (ridden out to the end) by about ten lengths from his stable companion Grantham. the latter passing Myth a few strides from the winning post.
